

Vincent K. McInerney, M.D.

Dr. Vincent McInerney graduated Summa Cum Laude from St Peter's University, Jersey City and from Rutgers New Jersey Medical School with honors. After completing his orthopaedic surgery residency at Seton Hall University / St. Joseph's Health training program, he became one of the first Sports Medicine Fellows at Massachusetts General Hospital / Harvard Medical School trained by Bertram Zarins and Carter Rowe. While in Boston, Dr. McInerney worked with the Boston Bruins and New England Patriots, in Dr. Henry Mankin's Cartilage Lab, and at MIT developing neuromuscular training methods.

In 1982, Dr. McInerney returned to New Jersey as one of the first sports medicine and arthroscopy fellowship trained orthopaedic surgeons in the state. He has served as an Assistant Dean, Professor and Chairman, Department of Orthopaedic Surgery, Director of Sports Medicine and Athletic Training at Seton Hall University School of Health and Medical Sciences. He is Program Director, Orthopaedic Surgery Residency Training Program at St. Joseph's Health affiliated with Hackensack Meridian School of Medicine at Seton Hall University. Dr. McInerney and his partners are team physicians for 24 high schools, Seton Hall University, Montclair State University, and NJ Jackals baseball team at Yogi Berra Stadium. He was appointed a U.S. Olympic research associate, team physician, Elite Athlete Project member; and team physician at multiple National Olympic Sports Festivals. As Medical Director for USA Olympic and National Team Handball Teams, he was team physician at the Olympic Games in Los Angeles (1984), Barcelona (1992) and Atlanta (1996); the Goodwill Games in Moscow, USSR (1986), Seattle (1990) and St. Petersburg, Russia (1994) and Pan Am Games (1987). He has published extensively in peer-reviewed journals and has lectured and been a visiting professor at numerous institutions and meetings.

Dr. McInerney is President and Founding Member of the NJ Orthopaedic Institute and conducts an active sports medicine practice. The driving force in his career is injury prevention and performance enhancement through proprioception, telemovement, and neuromuscular dynamics in conjunction with Robert Narcessian, his director of dynamical systems and Mike Decker, Rocky Mountain Consortium for Sports Research.

Dr. McInerney's other leadership awards and accolades include:

- . AOSSM, Board of Directors (1995 - 1997)
- . Chairman, AOSSM Fellowship Match Committee (2015 - 2018)
- . Member, AOSSM Research, Education, Young Educators, and Council of Delegates Committees
- . Eastern Athletic Trainers' Association David G. Moyer Award (1994)

- . Timothy M. Hosea, M.D. ATSNJ Physician of the Year Award (2017)
- . Educator of the Year, Seton Hall University (1998) and NJ Excellence in Medicine Award (2006)
- . Ranawat Award, Eastern Orthopaedic Association (2018)
- . AAOS, Board of Councilors Executive Committee, Chair Bylaws Committee (1999 - 2002)
- . President, NJ Orthopaedic Society (1993) and NJ Academy of Medicine (1997)

Dr. McInerney's family is the joy of his life and is blessed by the friendship of so many AOSSM members who live and practice wonderful family and spiritual values.
