Orthopaedic Sports Medicine Fellowship (1)

Orlando Health offers a one-year ACGME-accredited Orthopaedic Sports Medicine fellowship, which is fully-integrated with our orthopaedic surgery residency program. The Sports Medicine faculty consists of Daryl Osbahr, MD, Robert Murrah, MD, Harrison Youmans, MD, Tom Winters, MD, Amit Varma, MD, Brett Lewellyn, MD and Stanley Kupiszewski, MD.

The fellowship stresses mentorship, with a "one-on-one" relationship between the fellow and faculty. The program is divided into alternating "blocks" that are 2 months in duration, separated by 1 month blocks. The full spectrum of sports medicine problems are managed at Orlando Health, including a wide variety of knee, hip, ankle, Upper extremity (including hand), shoulder and elbow pathology. In addition to common disorders, the fellow will see a variety of unusual and complex pathology including multiple ligament knee injuries, PCL reconstruction, articular cartilage procedures, revision ACL reconstruction, hip arthroscopy, and shoulder arthroplasty (including reverse shoulder replacement), ensuring broad exposure for the fellows.

The Fellow is expected to participate in clinical and/or basic science research. The Fellow must be a graduate of an accredited residency program with eligibility for Part I of the American Board of Orthopaedic Surgery certifying exam.

Interested parties should complete the fellowship application and provide the documents listed below:

CURRICULUM VITAE
COPY OF YOUR MEDICAL SCHOOL DIPLOMA
MINIMUM OF TWO NEW LETTERS OF RECOMMENDATION
LIST OF PUBLICATION AND/OR LECTURES
PHOTOGRAPH

Mail to:
Daryl Osbahr, MD, 1222 S. Orange Avenue, 5th floor, Orlando, FL 32806
