OrthoBiologics:
Integrating Biologics and Clinical Ultrasound into Your Practice

- Hands-on Tissue Harvesting and Processing
- Ultrasound Guided Injection Laboratory

October 12–13, 2018
OLC Education and Conference Center
Rosemont, IL
**GENERAL INFORMATION**

**WHO SHOULD ATTEND?**
Orthopaedic surgeons, physician extenders and primary care specialists with a desire to learn or reinforce their knowledge on the use of orthobiologics, or an interest in expanding their practice into the field of orthobiologics.

**COURSE DESCRIPTION**
AOSSM’s *Orthobiologics: Integrating Biologics and Clinical Ultrasound into Your Practice* is the first course of its kind offered by a subspecialty organization. We are thrilled to have co-chairs, Brian J. Cole MD, MBA, Jason L. Dragoo MD and Rachel M. Frank MD, along with renowned faculty who are thought leaders in the research and clinical use of orthobiologics and regenerative medicine techniques.

The aim of the course is to provide orthopaedic surgeons with resources on how to properly use currently available biologics for treating musculoskeletal disorders. Through didactic lectures, case discussions, live and video demonstrations and hands-on practice with cadavers, the course will provide attendees with clinical decision-making skills, an overview of available technologies and regulations along with the best and most up-to-date evidence and methods to implement orthobiologics into your practice.

**LEARNING OBJECTIVES**
Upon completion of this educational activity, participants should be able to:

- Discuss current indications for orthobiologics based on the published evidence
- Discuss the proper selection of biologics for specific treatments
- Explain the role of MSK ultrasound in clinical practice
- Recognize normal and abnormal ultrasound anatomy of the shoulder, elbow, hip, knee, and ankle
- Utilize ultrasound guided techniques for MSK injections

**WHAT MAKES THIS COURSE UNIQUE?**
- Opportunity to learn from experts in the field of orthobiologics in a small and comfortable setting with easy access to faculty
- Hands-on practice with adipose tissue and bone marrow harvesting and processing on cadavers
- Hands-on practice with ultrasound guided injections on whole cadavers from the shoulder down to the ankles
- A modern, state-of-the-art learning environment

**HOUSING**
A block of rooms has been reserved at Hyatt Rosemont (one block from the Orthopaedic Learning Center) at a group rate of $129. Reservations may be made by calling (800) 233-1234 and asking for the AOSSM Surgical Skills Course Room Block. You can also book directly online at sportsmed.org. The reservation deadline is September 21, 2018. Room rates are until this date pending availability. Reservations after this date may be at a higher rate. Attendees are encouraged to book early.

**REGISTRATION FEES**

CANCELLATION / REFUND POLICY
A written request to cancel must be received in the AOSSM office prior to September 12, 2018. The registration fee, minus a $250 processing fee, will be refunded following the conference. No refunds will be made after September 12, 2018.

REGISTRATION HOURS
Friday, October 12 2:00pm – 8:00pm
Saturday, October 13 6:30am – 4:00pm

COMPLIMENTARY MEALS
Complimentary continental breakfast is served at the Hampton Inn and Suites. Dinner is provided on Friday and lunch on Saturday in the OLC Education & Conference Center.

AMERICANS WITH DISABILITIES ACT
The AOSSM wishes to take those steps to ensure that no individual with a disability is excluded, denied services, segregated, or otherwise treated differently than other individuals because of the absence of auxiliary aids and services. If you require any of the auxiliary aids or services identified in the Americans with Disabilities Act in order to attend this program, please contact AOSSM prior to arrival at info@aossm.org

PROGRAM INDEPENDENCE
AOSSM attests that the people responsible for the development of this live activity did so independently and were not influenced in any way by commercial supporters.

CONTINUING MEDICAL EDUCATION CREDIT
The American Orthopaedic Society for Sports Medicine (AOSSM) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

AOSSM designates this live activity for a maximum of 12.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLAIMER
The material presented in this continuing medical education program is being made available by the AOSSM for educational purposes only. This material is not intended to represent the only methods or procedures appropriate for the medical situation discussed, but rather it is intended to present an approach, view, statement, or opinion of the faculty, which may be helpful to others who face similar situations. Neither the content (whether written or oral) of any course, seminar or other presentation in the program, nor the use of a specific product in conjunction therewith, nor the exhibition of any materials by any parties coincident with the program, should be construed as indicating endorsement or approval of the views presented, the products used, or the materials exhibited by the AOSSM, or its Committees, Commissions, or Affiliates. The AOSSM makes no statements, representations or warranties (whether written or oral) regarding the Food and Drug Administration (FDA) status of any product used or referred to in conjunction with any course, seminar or other presentation being made available as part of this course. Faculty members shall have sole responsibility to inform attendees of the FDA status of each product that is used in conjunction with any course, seminar or presentation and whether such use of the product is in compliance with FDA regulations.

DISCLOSURE STATEMENT
In accordance with the guidelines of the ACCME, it is the policy of the AOSSM that faculty and planners disclose to the learners all financial relationships during the past twelve months with any commercial interest (any entity producing, marketing, re-selling, or distributing health care goods and services consumed by, or used on, patients). Any and all disclosures will be provided in the final program that is distributed at the meeting. In accordance with AOSSM policy, faculty participation is predicated upon timely submission and review of AOSSM disclosures. Non-compliance results in faculty being stricken from the program.

ON ORTHOREGENERATION NETWORK
The ON Orthoregeneration Network sets quality standards, spreads unbiased knowledge about orthoregeneration and links young professionals, experts and academic organizations all over the world. They build a strong network and guarantee innovation.

They believe that research is the engine of development and that linking and educating passionate young professionals is the way to advance the field of orthoregeneration significantly. Ultimately this will help the clinician and improve the quality of life for the patients.

7:00am  Daily Schedule Overview  
Brian J. Cole MD, MBA  
Jason L. Dragoo MD

VIDEO TECHNIQUE CORNER (HOW YOU DO IT)
Moderator  Jack Farr II, MD
7:05am  PRP Techniques  
Allan Mishra MD
7:15am  PRP and Muscle Injection Technique  
Seth L. Sherman MD
7:25am  BMA / BMC Technique: ASIS  
Brian J. Cole MD, MBA
7:35am  BMA / BMC Technique: PSIS  
Kristin Oliver MD
7:45am  Amniotic  
Kevin D. Plancher MD
7:55am  Treatment of Subchondral Bone: BMA / BMC vs. Subchondroplasty  
Jack Farr II, MD
8:05am  Question and Answer  
All Faculty

Moderator  Adam Yanke MD
8:15am  Live Demonstration: Arthroscopic Harvest of Adipose Tissue  
Jason L. Dragoo MD
8:30am  Video Technique: Adipose—Lipogems / Lipoasuction Harvest  
Claude T. Moorman III, MD
8:40am  Video Technique: Adipose—Syringe Emulsification  
Jason L. Dragoo MD
8:50am  Break

BIOLOGICS LAB
9:00–10:45am
Cadaver Lab:  Adipose Derived Harvest and Processing Techniques  
Lab Leader:  Claude T. Moorman III, MD
9:00am  Technique 1: Lipogems / Lipoaspiration  
Technique 2: Adiprep / Syringe Emulsification / Lipoaspiration

Lab Leader:  Kristin Oliver MD
10:15am  BMA / BMC Aspiration Techniques of the Anterior and Posterior Iliac Crest
10:45am  Break (boxed lunches in auditorium)

ULTRASOUND LECTURES
Moderator  Kyle Pilz PA
11:15am  Ultrasound Theory and Technology  
Douglas Hoffman MD
11:30am  Ultrasound Techniques: Shoulder / Elbow / Knee / Ankle / Hip Injection Intra-articular  
Douglas Hoffman MD
12:20pm  Break

ULTRASOUND DIAGNOSTICS / ULTRASOUND GUIDED INJECTIONS LAB
12:30–4:00pm
The goal of this lab is to allow attendees to familiarize themselves with ultrasound guided injections in the following areas (as time permits):

Shoulder
- AC Joint
- Biceps
- Subacromial
- Intra-articular Shoulder Injections  
Live models available for imaging of the shoulder joint

Elbow
- Intra-articular
- Lateral Epicondyle

Hip
- Intra-articular (anterior recess)

Knee
- Intra-articular
- Infrapatellar

Ankle
- Intra-articular
